1 Identification of the substance/mixture and of the company/undertaking	
· Product identifier	
• Trade name: ROMEX Adhesion Elutriant	
• Application of the substance / the mixture Concrete/Mortar admixtures Binder	
 Details of the supplier of the safety data sheet Manufacturer/Supplier: ROMEX Produktions GmbH Mühlgrabenstraβe 19 D-53340 Meckenheim Tel.: 0049 (0)2225-7032820 Fax: 0049 (0)2225-7032828 email: info@romex-rpg.de 	
 Informing department: Product safety department. Emergency telephone number: Giftnotrufzentrale BONN Tel.: 0049(0)228-19240 gizbn@mailen.meb.uni-bonn.de www.meb.uni-bonn.de/giftzentrale/ Central Ohio Poison Center at Nationwide Children's Hospital +1 614 355 0435 	
2 Hazards identification	
• Classification of the substance or mixture	
Skin Irrit. 2 H315 Causes skin irritation.	
Eye Dam. 1 H318 Causes serious eye damage.	
STOT SE 3 H335 May cause respiratory irritation.	
· Label elements · GHS label elements	
• GHS label elements The product is classified and labelled according to the Globally Harmonised System (GHS). • Hazard pictograms	
GHS05 GHS07	
· Signal word Danger	
· Hazard-determining components of labelling:	
Cement, portland, chemicals	
· Hazard statements	
Causes skin irritation. Causes serious eye damage.	
May cause respiratory irritation.	
· Precautionary statements	
Avoid breathing dust/fume/gas/mist/vapors/spray	
Wear protective gloves / eye protection / face protection. Wash thoroughly after handling	
Wash thoroughly after handling. Use only outdoors or in a well-ventilated area.	
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present	t and easy to do
Continue rinsing.	-
Immediately call a POISON CENTER/doctor.	
Specific treatment (see on this label).	
IF INHALED: Remove person to fresh air and keep comfortable for breathing.	

Trade name: ROMEX Adhesion Elutriant

	(Contd. of page 1)
If skin irritation occurs: Get medical advice/attention.	
IF ON SKIN: Wash with plenty of water.	
Take off contaminated clothing and wash it before reuse.	
Store locked up. Store in a well-ventilated place. Keep container tightly closed.	
Dispose of contents/container in accordance with local/regional/national/international	l regulations
· Classification system	regulations.
· NFPA-Ratings for USA:	
Health = 2	
$\frac{1}{1} = 0$	
$\frac{2}{Reactivity} = 0$	
· HMIS-ratings (scale 0 - 4)	
HEALTH 2 $Health = 2$	
FIRE 0 $Fire = 0$	
REACTIVITY 0 Reactivity = 0	
• Other hazards	
The product is alkaline Concentration of soluble chromium(VI) < 0.0002% (apper VVII paragraph 47)	of the EC Pequilation
Concentration of soluble chromium(VI) < 0.0002% (annex XVII paragraph 47 1907/2006)	of the EC Regulation
· Results of PBT and vPvB assessment	
• PBT: Not applicable.	
· vPvB: Not applicable.	
3 Composition/information on ingredients	
· Chemical characterisation: Mixtures	
• Description: Ready-to-use mortar containing Portland cement	
· Dangerous components:	
CAS: 65997-15-1 Cement, portland, chemicals	50-100%
EINECS: 266-043-4	
• Additional information For the wording of the listed hazard phrases refer to section 1	6.

4 First aid measures

· Description of first aid measures

· General information

Instantly remove any clothing soiled by the product.

Take affected persons into the open air.

· After inhalation Supply fresh air; consult doctor in case of symptoms.

· After skin contact

Instantly wash with water and soap and rinse thoroughly.

In cases of strong skin irritation, consult a doctor.

• After eye contact Rinse opened eye for several minutes under running water. Then consult doctor.

· After swallowing

Rinse the mouth with water immediately

Do not induce vomiting; instantly call for medical help.

· Information for doctor No particular measures are known - treat according to symptoms.

• Most important symptoms and effects, both acute and delayed No further relevant information available.

· Indication of any immediate medical attention and special treatment needed

No further relevant information available.

5 Firefighting measures

• Extinguishing media

- Suitable extinguishing agents The product is not flammable
- Use fire fighting measures that suit the environment.
- For safety reasons unsuitable extinguishing agents Not applicable
- Special hazards arising from the substance or mixture No further relevant information available.
- Advice for firefighters
- · Protective equipment: Wear self-contained breathing apparatus.
- · Additional information

Dispose of fire debris and contaminated fire fighting water in accordance with official regulations. Collect contaminated fire fighting water separately. It must not enter drains.

6 Accidental release measures

Personal precautions, protective equipment and emergency procedures Wear protective clothing. Avoid contact with eyes and skin.
Environmental precautions: Do not allow product to reach sewage system or water bodies. Do not allow to enter the ground/soil.
Methods and material for containment and cleaning up:

- Collect mechanically.
- Avoid causing dust.
- Ensure adequate ventilation.
- **Reference to other sections** See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for information on disposal.

· Protective Action Criteria for Chemicals

· PAC-1:

None of the ingredients is listed.

None of the ingredients is listed.

· PAC-2:

• PAC-3:

None of the ingredients is listed.

7 Handling and storage

· Handling

- · Precautions for safe handling
- The usual precautionary measures for handling chemicals must be observed. Prevent formation of dust.
- Information about protection against explosions and fires: The product is not flammable
- · Conditions for safe storage, including any incompatibilities
- · Storage
- Requirements to be met by storerooms and containers: Store only in unopened original containers.
- · Information about storage in one common storage facility: Store away from foodstuffs.
- Further information about storage conditions: Protect from humidity and keep away from water.
- Storage class 13

• *Specific end use(s) No further relevant information available.*

8 Exposure controls/personal protection

• Additional information about design of technical systems: No further data; see item 7.

· Control parameters

· Components with limit values that require monitoring at the workplace:

CAS: 65997-15-1 Cement, portland, chemicals (50-100%)

- PEL Long-term value: 50 mppcf or 15* 5** mg/m³ *total dust **respirable fraction REL Long-term value: 10* 5** mg/m³
- *total dust **respirable fraction
- *TLV* Long-term value: 1* mg/m³ E; *as respirable fraction

• Additional information: The lists that were valid during the compilation were used as basis.

- · Exposure controls
- · Personal protective equipment

• General protective and hygienic measures Keep away from foodstuffs, beverages and food. Take off immediately all contaminated clothing Wash hands during breaks and at the end of the work. Avoid contact with the eyes and skin.

· Breathing equipment:

In case of brief exposure or low pollution use breathing filter apparatus. In case of intensive or longer exposure use breathing apparatus that is independent of circulating air.

· Recommended filter device for short term use:

• Protection of hands:

Protective gloves.

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

· Material of gloves

Nitrile rubber, NBR

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

• *Penetration time of glove material* Value for the permeation: Level ≤ 6

· As protection from splashes gloves made of the following materials are suitable: Nitrile rubber, NBR

 \cdot Not suitable are gloves made of the following materials:

Leather gloves Strong gloves

(Contd. of page 5)

Trade name: **ROMEX** Adhesion Elutriant

· Chemical stability

• Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.

• Possibility of hazardous reactions Reacts with light alloys in the presence of moisture to form hydrogen

· Conditions to avoid No further relevant information available.

· Incompatible materials: No further relevant information available.

· Hazardous decomposition products: none, if stored and handled correctly.

11 Toxicological information

· Information on toxicological effects

· Acute toxicity

· LD/LC50 values that are relevant for classification:

CAS: 65997-15-1 Cement, portland, chemicals

Dermal LD50 2000 mg/kg (rab)

· Primary irritant effect:

· Skin corrosion/irritation Irritant to skin and mucous membranes.

• Serious eye damage/irritation Strong irritant with the danger of severe eye injury.

· Additional toxicological information:

The product shows the following dangers according to the calculation method of the General EC Classification Guidelines for Preparations as issued in the latest version: Irritant

· Carcinogenic categories

· IARC (International Agency for Research on Cancer)

None of the ingredients is listed.

· NTP (National Toxicology Program)

None of the ingredients is listed.

· OSHA-Ca (Occupational Safety & Health Administration)

None of the ingredients is listed.

<u>12 Ecological information</u>

· Toxicity

- Persistence and degradability No further relevant information available.
- · Behaviour in environmental systems:
- · Bioaccumulative potential No further relevant information available.

• *Mobility in soil* No further relevant information available.

- · Ecotoxical effects: Not determined
- · Additional ecological information:

· General notes:

Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water.

Do not allow undiluted product or large quantities of it to reach ground water, water bodies or sewage system.

Must not reach sewage water or drainage ditch undiluted or unneutralised.

Rinse off of bigger amounts into drains or the aquatic environment may lead to increased pH-values. A high pH-value harms aquatic organisms. In the dilution of the use-level the pH-value is considerably reduced, so that after the use of the product the aqueous waste, emptied into drains, is only low water-dangerous.

· Results of PBT and vPvB assessment

• **PBT:** Not applicable.

• **vPvB:** Not applicable.

(Contd. on page 7)
